New Feature Updates

Superior HealthPlan's Health Passport is a web-based, secure health information tool built using core clinical and claims information to deliver relevant healthcare information when and where it is needed for the foster children in the state of Texas.

By using Health Passport, Providers and Service Coordinators can improve care coordination, eliminate waste, and reduce errors by gaining a better understanding of a patient's medical history and health interactions as the patient progresses through the clinical process. Medical Consenters, appropriate DFPS and HHSC staff, participating providers, Superior, as well as behavioral health clinical staff, have access to detailed member health information. Once securely logged into Health Passport, this information can be accessed, including the **latest features***.

Allergies - Providers can use interactive fields to add or modify allergies at the point-of-care. Once an allergy is charted, it's instantly checked for medication interactions.

Appointments - All Health Passport users can review and add appointments for members.

Assessments - Providers can document Texas Health Steps, Dental and Behavioral Health forms directly online. Mailing or faxing in documents critical to patient care for display is also available.

CCD Export - *Providers have the ability to export Continuity of Care Document (CCD) Export (Intended for Providers to upload health passport data into their Electronic Medical Record (EMR) system.

Contacts - Easily find a foster child's PCP, Medical Conserter, Caregiver, Caseworker, and Service Coordinator contact information in one place. *New Service Coordinator, Service Manager, and Discharge Planner field types for the Contacts module.

Face Sheet - An easy-to-read summary that includes member demographics, care gaps, Texas Health Steps and Dental last visit dates, active allergies, active medications and more. *New 3-Day Exam Date and Last Texas Child and Adolescent Needs and Strengths (CANS) 2.0 Welfare Assessment Date fields to Face Sheet.

Growth Chart - Providers can chart weight, height, length and head circumference at the point of care to track growth of infants and children. View and print charted growth charts and plotted percentiles. *New View as a Chart feature graphs the growth chart percentiles to visually track child development within their gender and age group. The new graphs can be printed or downloaded for convenience.

Immunizations - A comprehensive list of a person's immunizations collected from ImmTrac.

Labs - All lab results are made available, where providers typically only have access to the lab results they've requested. Module includes the ability to filter by certain lab types. *New Texas Health Steps drop-down for the Labs filter category.

Medical History - A summary of medications filled and access to more detail, including name of the prescription, the prescribing clinician, date filled, and dosage. Indicators representing drug-drug, drug-allergy, and drug-food interactions appear when applicable as soon as new medications or allergies are added to the member record.

Patient History - Past visits with details that include the description of service, treating provider, diagnosis and the service date. Module includes the ability to filter by certain visit types. *New All Patient History and Psychiatric Admissions drop-downs for the Patient History filter category.

New Feature Updates

Recognized Benefits for Utilizing Health Passport

- Improves care coordination by connecting authorized Providers with health information from outside their facility.
- Allows Providers to monitor compliance with prescription regimens.
- Reduces duplicate diagnostic tests.

To get started, visit Provider.SuperiorHealthPlan.com and log in using your User Name and Password or click “Create An Account” to register.

New Feature Updates

CCD Export

Providers have the ability to export the **Continuity of Care Document (CCD)**, allowing providers to upload the complete health record for the member to their Electronic Medical Record (EMR) system.

Face Sheet

The Face Sheet represents a summary of a Foster Care Child's Health Record in a single view. The **Intellectual and Developmental Disabilities (IDD) Member Flag, Last CANS Date and 3-Day Exam Date** were recent added to increase the amount of information available here.
