## NON-CLINICAL HEALTH PASSPORT TRAINING GUIDE

The Health Passport is a secure web-based application built using core clinical and claims information to deliver relevant healthcare information when and where it is needed.

Using the Health Passport, you can improve care coordination, eliminate waste, and reduce errors by gaining a better understanding of a person's medical history and health interactions.

## Features

- **Medications** - You can access more detail, including the name of the prescription, the prescribing clinician, date filled, dosage, quantity, dosage instructions, and formulary information. A provider may also enter over the counter and/or sample drugs prescribed or given to the member.
- **Visit History** - You can view past visits that illustrate the description of the service, treating provider, diagnoses and the service date.
- **Vital Signs** - You can use interactive documentation to chart vital signs in the Health Passport at the point-of-care.
- **Lab Results** - You have access to all collected lab results. The solution uploads this information from contracted labs.
- **Immunizations** - A comprehensive list of a member's immunizations are collected from Immtrac.
- **Allergies** - You can use interactive documentation to chart allergies at the point-of-care. Once charted the solution automatically checks the allergy for medication interactions.
- **Forms** - You can fill out Electronic documentation of Physical Health, Behavioral Health, Dental, and Vision encounters.

Bee Stings(*)	Abdominal pain	Resolved	Allergy
penicillin(*)	Asthma	Cancelled	Allergy

The  denotes that there is a potential for an allergic reaction to take place while the patient is taking this medication. More information can be found by clicking on this icon.

If an allergy has a comment associated with it, an asterisk (\*) appears next to the allergy name. Click the allergy name on the Allergy Profile tab to display additional information, including any comment associated with the allergy.

In addition to an Active allergy, some allergies may have a status of Resolved or Cancelled. Statuses can be changed by clinicians incase an allergy was charted in error or because the patient no longer has a allergic reaction to a substance. Strikethrough text indicates resolved and cancelled allergies.

### THE FORMS MODULE

The screenshot shows the 'Forms' module interface for a patient named DUCK, HEWEY R. The interface includes a sidebar menu with categories like Overview, Demographics, Allergies, Medications, Visits, Immunizations, Forms, Vital Signs, Lab Results, and Disclaimer. The main content area is titled 'Forms' and shows a list of documents under the 'Documents' folder. The list has columns for SERVICE DATE, TITLE, PROVIDER, AUTHOR, STATUS, and ACTION. A table row is visible with the following data:

SERVICE DATE	TITLE	PROVIDER	AUTHOR	STATUS	ACTION
12/20/2007	7-12 Months	--	Ramathal, noel	Completed	View   Update   Print   History

Yellow callout boxes provide instructions: 'The number of forms within a folder is easily known by the number within the parentheses.' points to '(0)' next to 'Behavioral Health'. 'Check the box desired to make a print of that form.' points to the checkbox in the table row. 'After you find the form you want to use, click the View button.' points to the 'View' link in the table row. 'Print Selected' and 'Print Completed' buttons are also visible at the top right and bottom right of the interface.

Vital Signs

Print

► Show: Last 1 year

DATE & TIME (CT)	TEMP °F/°C	PULSE BPM	SYSTOLIC BP MM/HG	DIASTOLIC BP MM/HG	RESP BR/MIN	WEIGHT LBS OZ / KG
<a href="#">1/8/2008 1:57 PM</a>	99.0   26.1*					
<a href="#">11/20/2007 9:59 AM</a>	101.0   38.3	28	140	85	12	72 lbs   32.7 kg*

Click the Date and Time hyperlink in the displayed vital signs to view additional information about the vital sign. A line drawn through a vital sign (a strikethrough) indicates that the vital sign has been removed from the chart. This may occur if, for instance, a vital sign is entered in error.

An asterisk (\*) by a vital sign indicates that a comment related to the vital sign is available. Click the Date and Time hyperlink to view the comment in the detailed view.

### THE LAB RESULTS MODULE CONTINUED...

The screenshot displays the lab results interface for a patient named DUCK, HEWEY R. The patient's information includes age (12Y 9M M), sex (M), and various identifiers. The lab results are categorized by specialty, with 'Chemistry' selected. The specific test is 'HDL. CHOLESTEROL' performed on 5/21/2007 at 12:00 AM. The result is 69 mg/dL, ordered by TESTPHYSICIAN BOB. A comment is present: 'PLEASE NOTE: ALTHOUGH THE REFERENCE RANGE FOR VITAMIN ABNORMALITIES DUE TO OCCULT B12 DEFICIENCY; LESS THAN 1% OF PATIENTS WITH VALUES ABOVE 400 PG/ML WILL HAVE SYMPTOMS. 5 AND 10% OF PATIENTS WITH VALUES BETWEEN 200 AND 400 B12 IS 200-1100 PG/ML, IT'. The source is listed as 'Quest'. A yellow callout box with arrows pointing to the comment field contains the text: 'After clicking on a lab result you can see comments relative to the lab performed.'

### THE DISCLAIMER

The screenshot shows a web interface for a patient's Health Passport. At the top, there is a search bar and navigation links for 'Search' and 'Day List'. The patient's name is 'DUCK, HEWEY R 12Y 9M M'. Below the name, there are details for allergies (amoxicillin, bee pollen, Bee Stings, clonidine), PCP (PATEL, ATULKUMAR R), DOB (3/17/1995), and DFPS ID (26434518). A left-hand menu lists various sections: Overview, Demographics, Allergies, Medications, Visits, Immunizations, Forms, Vital Signs, Lab Results, and Disclaimer. The 'Disclaimer' section is currently selected and expanded. The disclaimer text is as follows:

**Disclaimer**

**Physician Responsibility**  
THE HEALTH PASSPORT IS NOT A COMPLETE ELECTRONIC MEDICAL RECORD. Access to the Health Passport does not relieve the health care provider of the professional obligation to obtain an accurate and adequate health history or to obtain any and all additional information necessary to provide professional services in a safe and effective manner, consistent with the prevailing standard of care. The information available in the Health Passport is merely intended to facilitate the provider's information gathering. The provider is responsible for consulting with the patient or their legal guardian to verify the accuracy of Health Passport information used in the patient's care or treatment.

**Member Participation**  
As long as a patient has active coverage with Superior HealthPlan Network ("SHPN"), the patient's information will remain available through the Health Passport. If a patient's enrollment in SHPN's Foster Care Program terminates, their Health Passport record will be archived and will be unavailable for viewing. If a patient is later re-enrolled in SHPN's Foster Care Program, his or her Health Passport record will be reactivated; however, patients with a lapse in coverage under SHPN's Foster Care Program may have gaps in the information that is available in the Health Passport.

**Sensitive Information**  
Various state and federal regulations restrict the use and disclosure of certain types of health information without patient authorization. For patients participating in the SHPN Foster Care Program, certain categories of health information have been identified as sensitive and therefore may not be available through the Health Passport (including certain types of mental health, HIV/AIDS, and alcohol and substance abuse treatment information).

At the bottom left of the screenshot is the Superior HealthPlan Network logo.

As a user of the Health Passport you have unique access privileges. Please read and abide by the information in the disclaimer and user agreement.
