

STAR Health Provider Incentive Program

Effective October 1, 2018, Superior HealthPlan will launch a STAR Health (foster care) 3 in 30 Provider Incentive Program. Primary Care Physicians who provide the 3-Business Day Medical Exam to new STAR Health members will be incentivized for coordinating all 3 in 30 components during the first 30 days of the member's STAR Health coverage.

As a reminder, 3 in 30 combines three separate, yet critical, tools for assessing the medical, behavioral and developmental strengths and needs of children and youth entering the Texas Department of Family and Protective Services (DFPS) conservatorship. The 3-Day Medical Exam is a requirement set forth by Senate Bill 11 and the other assessments are required by other Texas Health and Human Services Commission (HHSC) and legislative mandates. Together, the three assessments chart the path for ensuring STAR Health members get the care and services they need at the time they enter foster care.

The three components of the 3 in 30 program are:

3-Day Medical Exam

Texas Health Steps Checkup

Texas Child and Adolescent Needs and Strengths (CANS 2.0) Child Welfare Assessment
