Health Passport Overview

Superior HealthPlan's Health Passport is a web-based, secure health information tool built using core clinical and claims information to deliver relevant health-care information when and where it is needed for the foster children in the state of Texas. The Health Passport helps providers, state users and Service Coordinators improve care coordination, eliminate waste and reduce errors by providing a member's medical history and health interactions as the member progresses through the clinical process.

REMINDER: The data in the Health Passport is not a member's complete medical record, but it does contain information on member demographics, including doctor visits for which claims have been submitted, allergies, lab test results, immunizations and filled medications. Health Passport features include, but are not limited to:

-  **Face Sheet** - This easy-to-read summary that includes member demographics, care gaps, Texas Health Steps and Dental last visit dates, active allergies, active medications and more.
-  **Contacts** - Easily find a foster child's Primary Care Physician (PCP), Medical Consenter, Caregiver, Caseworker, Service Coordinator and other important contact information in one place.
-  **Allergies** - Users can use interactive fields to add or modify allergies at the point-of-care. Once an allergy is charted, it's instantly checked for medication interactions.
-  **Assessments** - Users can document Texas Health Steps, Dental and Behavioral Health forms directly online. Mailing or faxing in documents critical to patient care for display is still available.
-  **Growth Chart** - Users can chart weight, height, length and head circumference at the point-of-care to track growth of infants and children. An on-demand graph is available to visually plot where the foster child is on the development curve for their gender and age group.
-  **Immunizations** - A comprehensive list of a person's immunizations collected from ImmTrac.
-  **Labs** - All lab results are made available, where providers typically only have access to the lab results they've requested.
-  **Medication History** - A summary of medications filled and access to more detail, including name of the prescription, the prescribing clinician, date filled, and dosage. Indicators representing drug-drug, drug-allergy, and drug-food interactions appear when applicable as soon as new medications or allergies are added to the member record.
-  **Patient History** - Past visits with details that include the description of service, treating provider, diagnosis and the service date.
-  **Appointments** - All users can review and add appointments for members.

Non-Clinical Access to Health Passport

Medical Consenters, Texas Department of Family and Protective Services (DFPS) caseworkers and STAR Health staff can access the Health Passport secure web application by following the instructions below:

- Open www.FosterCareTX.com using Google Chrome or Microsoft Edge.
- To log in, enter the **User Name** (email) and **Password** you created during registration, then click **Login**. If you need to create an account, click the **Create an Account** button to register.
- To access Health Passport, click the **Launch Health Passport** button from your account homepage.

The screenshot shows the homepage of FosterCareTX.com. At the top, a dark blue banner reads "The Tools You Need Now!" with the subtext "Our site has been designed to help you get your job done. Manage all products with ease in one location". Below this, there are three main navigation options: "Check Eligibility" (with a thumbs up icon), "Authorize Services" (with a checkmark icon), and "Manage Claims" (with a dollar sign icon). On the right side, there is a "Login" form with fields for "User Name (Email)" (containing "name@domain.com") and "Password", a green "Login" button, and a link for "Forgot Password / Unlock Account". Below the login form, there is a "Need To Create An Account?" section with a red "Create An Account" button. Further down, there is a "How to Register" section with a "Provider Registration Video" button and a "Provider Registration PDF" button.

The screenshot shows the user's account homepage. At the top, there is a "Welcome" header. Below it, there is a "Recent Activity" section with a table with columns "Date" and "Activity". The main content area is titled "Health Passport" and features a prominent red-bordered button labeled "Launch Health Passport" with a right-pointing arrow. Below this button, there are links for "Health Passport online training" and "STAR Health Trainings & Behavioral Health Resources". At the bottom, there is a note: "STAR Health Webinar recordings accessible on this website are for the use and training of the Department of Family and Protective Services (DFPS) staff only."

Non-Clinical Access to Health Passport

- The User Agreement and Disclaimer will appear. Once you have read the agreement, click **I have read and agree to these terms** to continue.

User Agreement and Disclaimer

User Agreement for Health Care Providers

[I have read and agree to these terms.](#)

For purposes of compliance with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and its accompanying privacy and security standards for an individual's protected health information, Health Care Providers are advised that this website is intended to be used in a manner defined within the "Treatment, Payment and Healthcare Operations" portion of the HIPAA privacy standards.

Terms of the Agreement:

As a health care provider:

- You are responsible for identifying authorized users of the Health Passport within your organization.
- You are responsible for ensuring all users in your organization comply with all applicable state and federal laws, including privacy laws.
- Access to patient information must be limited to those patients actively under your professional care.
- You are responsible for maintaining the physical security and confidentiality of Health Passport information that you may view on a computer, print to paper, or copy or download to other formats.
- Passwords cannot be shared. If you are aware that a password has been shared, you are required to notify Superior HealthPlan Network within 24 hours so that a new password can be assigned.
- Superior HealthPlan Network reserve the right to monitor all activity on the website.
- You assume all risk of errors and/or omissions to all information manually added to the system.

By using the services provided by this website, you agree to the above terms. If you do not agree to be bound by this agreement, you are not authorized to enter this website and may not use any of the services available through this website.

Disclaimer

All Users

The information contained in this website (the "Information"), and provided by Centene Corporation and its affiliates (collectively referred to as the "Company"), is for general information purposes only and is used solely at the risk of the user. The Information is not intended as, and should not be used as, a substitute for the diagnosis, expertise, treatment, advice, and judgment of a physician, pharmacist or other healthcare professional (a health care professional should be consulted before taking or discontinuing a drug mentioned in the information presented or before relying on the information). The Information is not comprehensive and does not cover all uses, precautions, side effects, warnings, and interactions related to pharmaceuticals or treatments. The Information may not apply to any specific medical condition. Nor does the Information take into account personal circumstances; it should not be relied upon or construed to indicate that a use of a drug or treatment is safe, appropriate, or effective for a given individual. Nothing contained on this website should be construed or constitute medical advice or professional advice of any kind.

As long as a patient has active coverage in Superior HealthPlan's STAR Health Foster Care Program, the patient's information will remain available through the Health Passport. If a patient's enrollment in the program terminates, the patient's Health Passport record will be archived and will be unavailable for viewing.

The Information is provided by Company is "as is." Member Search

To search a member, enter the first few letters of the first and last name and one of the three ID numbers (Medicaid ID, Social Security Number [SSN] or Texas Department of Family and Protective Services [DFPS] ID) and click **Go**.

The screenshot shows the 'Health Passport - Member Search' form. It has five input fields: 'First Name*', 'Last Name*', 'Medicaid ID', 'SSN', and 'DFPS ID'. The 'SSN' and 'DFPS ID' fields are preceded by 'OR'. Below the fields are two buttons: a green 'Go!' button and a red 'Clear' button. The 'Go!' button is highlighted with a red box.

- The search results will display the full name of the member and other demographic information.
- Click the member's name to access the member's health record.

The screenshot shows the 'Health Passport - Member Search' form with search results. The 'First Name*' field contains 'lu', the 'Last Name*' field contains 'du', and the 'DFPS ID' field contains '88888888'. Below the form is a table with the following data:

ELIGIBLE	NAME	AGE	DOB	GENDER	MEDICAID ID	DFPS ID
	LUCY DUCK	10	01/25/2010	F		88888888

Face Sheet

The **Face Sheet** module provides a quick overview of the member's health record including common diagnoses and procedures, active medications, active allergies, care gaps and member demographics.

Allergies

The **Allergies** module contains all allergies for a member entered by providers. Click the **allergy name** to view the allergy history.

- A prescribed medication is indicated by a **M**. If an allergy has a comment associated with it, an asterisk (*) appears next to the allergy name.
- The strikethroughs indicate:
 - **Resolved status** — an allergy the member no longer experiences.
 - **Canceled status** — an allergy that could be mistakenly entered.

Vaccine-Preventable Diseases and the Vaccines that Prevent Them

Disease	Vaccine	Disease spread by	Disease symptoms	Disease complications
Chickenpox	Varicella vaccine protects against chickenpox.	Air, direct contact	Itchy, red, raised blisters, fever, swollen lymph nodes.	Scarlet fever, bacterial meningitis, encephalitis (brain swelling), pneumonia (infection in the lungs), death.
Diphtheria	DTaP* vaccine protects against diphtheria.	Air, direct contact	Weakness, headache, fever, swollen lymph nodes.	Swelling of the throat muscle, heart failure, coma, death.
Hib	Hib vaccine protects against hemophilus influenzae type b.	Air, direct contact	May be no symptoms unless bacteria enter the blood.	Meningitis (infection of the covering around the brain and spinal cord), bacterial meningitis, epiglottitis (life-threatening infection that can block the windpipe and lead to serious breathing problems), pneumonia (infection in the lungs), death.
Hepatitis A	HepA vaccine protects against hepatitis A.	Direct contact, contaminated food or water	May be no symptoms, fever, headache, weakness, vomiting, jaundice (yellowing of skin and eyes), stool color.	Liver failure, encephalitis (brain swelling), liver cancer, liver failure, liver cancer.
Hepatitis B	HepB vaccine protects against hepatitis B.	Contact with blood or body fluids	May be no symptoms, fever, headache, weakness, vomiting, jaundice (yellowing of skin and eyes), stool color.	Chronic liver infection, liver failure, liver cancer.
Influenza (Flu)	Flu vaccine protects against influenza.	Air, direct contact	Fever, muscle pain, sore throat, cough, extreme fatigue.	Pneumonia (infection in the lungs).
Measles	MMR** vaccine protects against measles.	Air, direct contact	Itchy, red, raised blisters, fever, swollen lymph nodes.	Encephalitis (brain swelling), pneumonia (infection in the lungs), death.
Mumps	MMR** vaccine protects against mumps.	Air, direct contact	Swollen glands (under the jaw), fever, headache, sore throat, muscle pain.	Pneumonia (infection in the lungs), death.
Pertussis	DTaP* vaccine protects against pertussis (whooping cough).	Air, direct contact	Severe cough, runny nose, sneezing, fever, muscle pain.	Pneumonia (infection in the lungs), death.
Polio	IPV vaccine protects against polio.	Air, direct contact, through the mouth	May be no symptoms, weakness, muscle pain.	Paralysis, death.
Pneumococcal	PCV13 vaccine protects against pneumococcal.	Air, direct contact	May be no symptoms, pneumonia (infection in the lungs).	Bacteremia (blood infection), meningitis (infection of the covering around the brain and spinal cord), death.
Rubella	MMR** vaccine protects against rubella.	Through the mouth	Swollen glands, fever, sore throat, muscle pain.	Deafness, blindness, heart disease.
Tetanus	DTaP* vaccine protects against tetanus.	Exposure through cuts in skin	Stiffness in neck and abdominal muscles, difficulty swallowing, muscle spasms, fever.	Broken bones, breathing difficulty, death.

* DTaP combines protection against diphtheria, tetanus, and pertussis.
** MMR combines protection against measles, mumps, and rubella.

Integrated Patient Education – Medication Leaflets

Read this medicine information sheet carefully each time you get this medicine filled. You must carefully read the "Consumer Information Use and Disclaimer" below in order to understand and correctly use this information.

Mupirocin Cream and Ointment

Pronunciation (myoo PEER oh sin)

Brand Names: US Bactroban.

What is this drug used for?

- It is used to treat skin infections.

What do I need to tell my doctor BEFORE I take this drug?

- If you have an allergy to mupirocin or any other part of this drug.
- If you are allergic to any drugs like this one, any other drugs, foods, or other substances. Tell your doctor about the allergy and what signs you had, like rash; hives; itching; shortness of breath; wheezing; cough; swelling of face, lips, tongue, or throat; or any other signs.
- If a large area needs to be treated.
- If your skin is damaged or has open wounds. Do not put on damaged skin or open wounds.

This drug may interact with other drugs or health problems.

Tell your doctor and pharmacist about all of your drugs (prescription or OTC, natural products, vitamins) and health problems. You must check to make sure that it is safe for you to take this drug with all of your drugs and health problems. Do not start, stop, or change the dose of any drug without checking with your doctor.

What are some things I need to know or do while I take this drug?

- Tell all of your health care providers that you take this drug. This includes your doctors, nurses, pharmacists, and dentists.
- Do not use longer than you have been told. A second infection may happen.
- Talk with your doctor before you use other drugs or products on your skin.
- Do not use this drug near an area where drugs are given into a vein. Talk with the doctor.

What are some side effects that I need to call my doctor about right away?

WARNING/CAUTION: Even though it may be rare, some people may have very bad and sometimes deadly side effects when taking a drug. Tell your doctor or get medical help right away if you have any of the following signs or symptoms that may be related to a very bad side effect:

- Signs of an allergic reaction, like rash; hives; itching; red, swollen, blistered, or peeling skin with or without fever; wheezing; tightness in the chest or throat; trouble breathing or talking; unusual hoarseness; or swelling of the mouth, face, lips, tongue, or throat.
- Irritation where this drug is used.
- Very bad itching.
- Dizziness.
- A fast heartbeat.
- A heartbeat that does not feel normal.
- A very bad and sometimes deadly form of diarrhea called Clostridium difficile (C diff)-associated diarrhea has happened with most antibiotics. This may happen while using the antibiotic or within a few months after you stop using it. Call your doctor right away if you have stomach pain or cramps, very loose or watery stools, or bloody stools. Do not try to treat loose stools without first checking with your doctor.

Wolters Kluwer Clinical Drug Information Page 1

Patient History

The **Patient History** module contains visit information from claims data on all services rendered, whether paid or denied. Claims come from all provider types and providers do not need to do anything extra for this data to load.

- Click the **date** to view more visit details.

The screenshot shows the 'Health Passport: LUCY DUCK' interface. On the left is a navigation menu with options like Face Sheet, Contacts, Allergies, Assessments, Growth Chart, Immunizations, Labs, Medication History, Patient History (highlighted), and Appointments. The main area displays a 'Visits' tab with filters for 'Last' (5 years), 'From Date' (06/30/2019), and 'To Date' (06/30/2020). A table lists patient visits with columns for DATE, LOS, DIAGNOSIS, Dx CODE, VISIT TYPE, BILLING ENTITY, and SOURCE. A red box highlights the date '02/12/2019' in the first row, and a vertical red line connects it to a 'Visit Details' pop-up window. The pop-up window shows claim information and a table of procedures.
