

Health Passport

Overview

Superior HealthPlan's Health Passport is a web-based, secure health information tool built using core clinical and claims data. This tool delivers relevant health-care information when and where it is needed for foster children in the state of Texas.

Health Passport helps providers, state users and Service Coordinators improve care coordination, eliminate waste and reduce errors by providing a member's medical history and health interactions as the member progresses through the clinical process. Medical Consenters, appropriate Texas Department of Family and Protective Services (DFPS) and Texas Health and Human Services (HHS) staff, participating providers and Superior HealthPlan will have access to detailed member health information.

A screenshot of the Health Passport web application. The header shows "Health Passport: HUEY DUCK" and buttons for "Member Search" and "Print All". A left sidebar contains a "Face Sheet" menu and a list of tabs: Contacts, Allergies, Assessments, Growth Chart, Immunizations, Labs, Medication History, Patient History, and Appointments. The main content area displays member information in a grid. The "Face Sheet" tab is active, showing fields for Age (20 Y), DOB (03/17/1995), Gender (Male), Marital Status (Single), Race/Ethnicity (White/Hispanic), Primary Language (N/A), and Primary Address (1234 WIDNEY AVE, ORLANDO, FL 32789). It also shows Phone (123) 456-7890, DFPS ID (11111111), Medicaid ID (55555555), HP ID (0010111111), Authorized Level of Care (210), Forensic Assessment Indicator (N), and Transitioning Youth Program (Y). Below this, there are sections for "Care Gaps" (Nothing found to display), "Active Allergies" (Amoxicillin, Codeine, Ibuprofen, Lisinopril, Peanut Butter, Peanut-containing Drug Products, Penicillins, Polen, Shellfish-derived Products, Tricodone), "Recent Medications" (Nothing found to display), "Texas Health Steps Last Visit Date" (2/13/2014), "Last Dental Visit Date" (2/13/2014), "Top 5 Diagnoses" (V57.89 CARE INVOLVING OTHER SPECIFIED REHABILITATION PROCEDURE, 296.54 Bipolar I disorder, most recent episode (or current) depressed, severe, specified as with psychotic behavior, 309.81 Posttraumatic stress disorder, V20.2 ROUTINE INFANT OR CHILD HEALTH CHECK, 000 Interop dental to primary), and "Top 5 Procedures" (T1019 Personal care per 15 min, 90832 Psychotherapy, 30 minutes with patient and/or family member, 90853 Group psychotherapy (other than of a multiple-family group), 81003 Urinalysis, by dip stick or tablet reagent for bilirubin, glucose, hemoglobin, ketones, leukocytes, nitrite, pH, protein, specific gravity, urobilinogen, any number of these constituents, automated, without microscopy, 00431 Drug screen, qualitative: multiple drug classes by high complexity test method (e.g., immunoassay, enzyme assay), per patient encounter).

Recognized Benefits

- Improves care coordination by connecting authorized providers with health information from outside their facility.
- Allows providers to monitor compliance with prescription regimens.
- Reduces duplicate diagnostic tests.

Features

- **Face Sheet** – An easy-to-read summary that includes member demographics, care gaps, Texas Health Steps and Dental last visit dates, active allergies, active medications and more.
- **Contacts** – Easily find a foster child's PCP, Medical Consenter, Caregiver, Caseworker, and Service Coordinator contact information in one place.
- **Allergies** – Providers can use interactive fields to add or modify allergies at the point-of-care. Once an allergy is charted, it's instantly checked for medication interactions.
- **Assessments** – Providers can document Texas Health Steps, Dental and Behavioral Health forms directly online. Mailing or faxing in documents critical to patient care for display is also available.
- **Growth Chart** – Providers can chart weight, height, length and head circumference at the point of care to track growth of infants and children.
- **Immunizations** – A comprehensive list of a person's immunizations collected from ImmTrac.
- **Labs** – All lab results are made available, where providers typically only have access to the lab results they've requested.
- **Medication History** – A summary of medications filled and access to more detail, including name of the prescription, the prescribing clinician, date filled, and dosage. Indicators representing drug-drug, drug-allergy, and drug-food interactions appear when applicable as soon as new medications or allergies are added to the member record.
- **Patient History** – Past visits with details that include the description of service, treating provider, diagnosis and the service date.
- **Appointments** – All users can manage and review appointments for members.
